

# Introduction & Testimonals

Wind Visuals roots began in 1984 following my own fifteen year career working in the entertainment industry as a theatrical lighting designer. One day, I was given a stunt kite as a gift. Well, that was it! I was hooked. Along with a junior partner, we proceeded to develop a stunt kite team and show which performed at outdoor festivals and special events throughout Canada and the Eastern United States. Our kite show matured, and in 1989 we ended up on the lagoon at Epcot Center – Walt Disney World, Florida. The five member kite team (The Shooting Star Kite Show) performed a series of stunt kite shows, choreographed to music while being pulled behind ski boats which created our wind. The Disney Corporation loved it so much, that in 1991, they invited me back to help conceive and execute a 14 minute daytime spectacular called: "Surprise in the Skies", which ran for a full year at Epcot Center commemorating the 20th Anniversary of The Magic Kingdom.

In 2005 I introduced Wedding Feather Banners to the bridal industry and ran a half page ad in Martha Stewart Weddings Magazine. (2005 Spring Issue) What a response! I received countless telephone calls from brides, wanting to be the bride in the photo.

I hope that you enjoy browsing our offerings and choose Wind Visuals Feather Banners to create "Magic in Minutes" and a visual impact second to none at your next event!

-Peter D. Foy (Owner)

## February 5, 2010

#### To Whom It May Concern:

Last fall, the Crystal City Business Improvement District (BID) procured the services of Wind Visuals to provide and manage installation of approximately 320 feather banners along a mile-long stretch of the course of the Marine Corps Marathon. Due to the professionalism, skills, and knowledge of the staff as well as the efficiency and smoothness of the operation, the Crystal City BID recommends Wind Visuals to other organizations seeking such services.

Since 2006, Crystal City has hosted miles 22 and 23 of the Marine Corps Marathon, bringing nearly 35,000 marathon runners through local streets and past local businesses. As the primary mission of the Crystal City BID is to change how people see and perceive Crystal City, ensuring that the runners receive a colorful, energetic, and welcoming experience is an important goal of the day's activities. The colorful flags provided by Wind Visuals met this need perfectly.

In addition to providing a quality product, Wind Visuals also delivered a much needed turnkey operation that allowed the relatively small Crystal City BID team to focus on other elements of the day's planning and events. The efficiency, speed, and thoroughness of the Wind Visuals team far surpassed our expectations.

Given this experience, the Crystal City BID team recommends the services of Wind Visuals to other organizations seeking implementation of large-scale, colorful event displays.

## August 13, 2008

#### -Robert Mandle, Vice President of Operations

#### To Whom It May Concern:

The Softub Feather Banner program has been a tremendous success for our dealers. The dealers have reported that they are easy to assemble and very good at attracting attention. Our dealers work primarily in a booth/exhibit scenario and are always looking for ways to attract attention.

The quality of the product is very high and we have received excellent service. Everyone at Wood N' Kites (Wind Visuals) has gone "above and beyond" to help us get our program off the ground.

I can highly recommend this product to any business or organization seeking to draw attention to an event or location.

"

-Tisha Mitchell, Softub Marketing
